SAFETY PIN ETIQUETTE:

Fashion TIPS from designer Esther Nash!

Are you tired of your colorless bland attire? Time to throw out the old drab look and bring in the new sparkling, brighter you!

No reason to call the fashion police anytime soon. You won't have to worry about being hauled off to jail. No more fashion indiscretions. With a box of safety pins and a few simple steps, you can bring your old clothes some new life.

Items needed to get started:

- 1) Safety pins
- 2) Fabric scissors
- 3) Ruler/pencil
- 4) Any dress that fits well

STEP 1

Place dress on a clean flat surface with plenty of room. If your dress is too long and you don't like the length, cut it. Make sure you use your ruler and pencil for accuracy. Measure desired length using a ruler and scissors and cut straight across.

STEP 2

Take safety pins and pin on your dress. Draw out a pattern to follow. If not funky enough, use buttons with funky text for added fun.

Essential items needed to glow like no other; all designed by Esther Nash:

- 1) Sequins topper beret
- 2) Midriff fantasy top
- 3) Pair of styling earrings

CONTACT ESTHER NASH IN NYC (917) 286-0614, (718) 965-8674 and FL (305) 674-0540 or check out her website at www.babydollboutique.com.
