# The Rain or Shine Parasol

## Fashion TIPS from Designer Esther Nash

fashion

Take out that tired old umbrella that has so many holes that you're too embarrassed to walk around with it. It's time to patch it up with a real fixer-upper, compliments of designer, Esther Nash. No more hiding your face in shame. Stand tall and proud!

Fashionably fit for the weather, you'll be ready for any thunderstorm. Not only will you look good but you will be protected from whatever Mother Nature throws at you any day of the year.

### Step 1

Get out that umbrella eyesore and use your creative eye to jazz it up a bit. With your permanent magic markers of all colors of the rainbow, draw a design that you find pleasing--something that you will be proud to sport around town with.

### Step 2

If Step 1 hasn't created a wild enough result and your umbrella still needs some spice, glue on some funky patches of assorted colors using fabric glue. Cut out fabric designs on the patches, such as stars or fish, and now you are partying!

Next time the weather is lousy, flaunt your unique parasol umbrella all over the city.

### Check out these other Esther Nash Creations:

1. Turtle Neck, without sleeves midriff sweater
2. Spandex aqua blue gloves
3. Original rock star jeans autographed by Esther Nash
4. Don't forget those handmade earrings!

No putting off to tomorrow
